

Communications Committee Meeting June 17, 2007

Eleanor and I, in the presence of and at the end of the Governance Committee, held an informal meeting Sunday.

We discussed and agreed on the following;

- Rick Hoffman expressed an interest in serving on this committee. He and I spoke at the Finance Committee on Saturday and I encouraged him to take the Chair if he is interested. I asked everyone at the Governance Meeting if they objected should he accept and there were no objections.
- Eleanor is looking at setting up "Talk to the Committee Chairperson" pages on the website. This will be an attempt to further broaden our reach to the HIC Members at large. Committee Chairs will post what's being discussed and seek feedback and/or individual requests to attend the next scheduled meeting to listen in and/or present a new idea relative to that Committee.
- The HI Office, when asked by Eleanor, Myself and/or the HI Management or Board of Trustees will begin sending out very short "Notices" letting people know that new information has been posted to the website along with a link to that specific page. For example; schedule changes, new articles, news, events and/or anything to keep everyone informed as to the happenings on our Island. I personally am looking at an "auto-dialer" for those members who do not utilize email for the same purpose.

**From the Communication Committee Chairman**

***My name is Scott Wilson and I am honored to Chair this Committee. Our Committee is made up of Eleanor Bruegeman and myself. We have accomplished quite a bit since we first met after the initial Strategic Planning Session last year. Among those accomplishments;***

- ***New look for the website which is all Eleanor's doing.***
- ***We acquired Adobe Acrobat which allows the electronic version of the "Viewpoint" to be sent.***
- ***The Office staff acquired a new Dell Notebook Computer (via a donation) for tracking the various email data bases.***

***Currently we are setting up WebPages such as this so that the individual Committee Chairs can let you know what they are talking about at their individual meetings.***

***We are also setting up a simple notification system which alerts you to an update to your Hat Island Website. You will get a simple one line email telling you of a new posting with a link to that specific page. We are working on an auto dialer for those members who do not utilize email.***

***As Chairman I seek feedback from anyone who has something to contribute.***

***Please email me at ..... ?***
