

## Charter Barge Rules and Rates 2022

San Juan Marine Freight operates the M/V *San Juan* Enterprise out of Sky Line Marina in Anacortes which is a 12-hour round trip. At \$300 per hour it costs \$3,000 before any runs are made. Every person who brings a load over must share in that overhead cost. In order to break even we must limit the barges loiter time and we must maximize the available deck space. The barge can carry five standard size cars or it can carry a 40-foot tractor trailer rig, a 38-foot rental box truck, and a 2,000-gallon septic pump out truck. Each round trip takes roughly 2 hours underway and 30-45 minutes load time at each end. Delivery trucks often take over an hour to make their delivery on the island. Therefore, a single round trip will take 3-4 hours and cost \$900-\$1200. The island's fuel truck must travel alone and is usually the first barge run. **Please arrive at least 35-40 minutes before Barge load time. Late loads may be denied passage or charged a late fee at the discretion of the Barge Master.**

**Hand Loads** - (Furniture, plants, loose lumber, appliances, and propane bottles) \$16-\$105 **per item at the load master's discretion.** Small individual hand loads that can fit among other roll-on loads will be allowed if space is available and does not delay the vessel. Large Volume hand loaded cargos will not be allowed. Non-scheduled arrivals are discouraged however may be loaded on a space available basis (payment to the HICA staff person in charge with either a credit card or check only).

- All loads should be roll-on, roll-off, or palletized for deck load by barge's fork lift
- Lumber/Supply deliveries must be capable of unloading on the island within 45 minutes or a time charge will be added at **\$150 per half hour increments. See NOTE UNDER RENTAL VEHICLES/TRUCKS**

**Vehicle Identification** -- Prior to bringing the vehicle, ATV, UTV, or golf cart to the Barge, please place 3" letters/numbers identifying your lot number. Black or white lettering can be used. You can get them at Harbor Marine. Place them in a visible location such as the rear window or bumper area. Electrical tape may not be used.

**Rental Vehicles/Trucks** – Delivery and Rental vans/trucks with boxes/beds longer than 20 feet tend to have long and low rear overhanging hitches, bumpers, and lift gate tracks and should be avoided if possible. If the use of those vehicles is necessary you will need to contact the Office so they can let the Barge Master know as they require more loading time and work each loading. Most rental company's trucks present this challenge with their 24-foot boxes; however, **Penske** seems to have the highest clearance. Occasionally there may be some damage to rear bumpers which is why you might consider purchasing insurance!

**NOTE: When booking a Rental Vehicle, Truck, Lumber Truck etc. you must provide the entire length of the load. We have had several instances where a 24-foot truck has lumber sticking out by 10 feet. This should have been counted and billed for as a 34-foot truck. If you provide the island with an incorrect length, you may be bumped to a later run and charged for the overtime fee if an added run is necessary to accommodate your mistake. The charge for the overtime fee is \$300 per hour.**

**Deck Space Loads** - (per fork lift load) \$63 each regardless of how they are stacked on the vessel. If your load requires more than invoiced, you will be invoiced for the difference.

**Pallet Pricing** – A pallet is 4' x 4' x 5' weighing no more than 2500 pounds. The charge is \$63 per pallet. If the pallet exceeds these standards, customer will need to rearrange the load and will be charged accordingly.

**Beach Landings** – Minimum \$50-\$100 extra fee.
