

# Architectural Control Committee Minutes

4/3/22

Erik, Bill, Ray & Dianna reviewed A 41 and approved subject to William Liles staking the project. He will email ACC to review.

Garden Fence request, per Erik and Ray will be on the next board agenda. The question: does the Board President have the sole power to sign the request.

We all agreed that no drilling equipment (Division G) should be allowed on island until a Snohomish County Building Permit is issued. Lumber drops are ok to schedule barge.

No truck/camper is allowed per Article 9, but we would review a request once a Snohomish County Building Permit is issued.

Ray is drafting a response to Div G owner for the committee to review and vote on a course of action.
