

Committee Meeting June 6, 2022

Five members were present on a Zoom meeting

Topic: Trailers / Campers, Sheds and when they need SC Permit, Singh and enforcement.

\*\* Lively debate all around, as always and should be:

After a lot of debate, we passed a motion to "not allow campers/trailers on the island." Per CCR # 9 and a letter will be sent to owner. Kim is to arrange removal.

We discussed sheds/garages and came to a decision that an upper story might add to the square footage to require a Snohomish County Permit. This is not addressed in the CCR's but we used CCR # 4 and # 19 to arrive at our decision. This will be applied on all new applications. But in any case we will not approve a living unit in or above a shed/garage

Sandy will contact the lot owner in J to find out what the status is on permits, there are conflicting statements and building submissions by said owner.

We briefly discussed enforcement of CCR's, and the committee is divided, so it was tabled for another meeting.

Bill Townsend

Secretary
